Introduction to Blooket

Hey there, I'm Brad! Welcome to the Blooket experience. This platform is a game-changer in the classroom, making learning fun with its interactive games like trivia. Blooket helps teachers create customized quizzes that students can enjoy in a gamified environment.

Let's dive into how you can use Blooket to engage your students.

Getting Started with Blooket

1. Sign Up for Blooket

- Visit [Blooket.com](https://www.blooket.com) and click "Sign Up."
- Choose "Teacher" as your role.
- Fill in your details: Date of birth, location (if you're from the USA), and your preferred sign-up method (email or Google account).
- Create a username, accept terms, and submit.
- Complete the welcome popup and start your Blooket journey.

2. Login to Blooket

- Go to [Blooket Login](#).

- Enter your email and password, or log in with Google.
 - If you've forgotten your password, reset it with the "Forgot Password" option.
-

Navigating the "My Set" Page

After logging in, you'll land on the "My Set" page. Here, you can:

- **Create New Quizzes:** Click "Create" to start a new set.
 - **Explore Pre-made Sets:** Use the "Discover" tab to find quizzes created by others.
-

Discover Quizzes on Blooket

1. Search for Sets

- Click "Discover" and type relevant keywords (e.g., "math," "science").
- You'll find various sets, including **Teacher Verified** sets, which are curated for quality.

2. Choose a Quiz

- Once you find a quiz, you have options to:
 - Host a Game
 - Play Solo
 - Assign Homework

3. View All Answers

- Click "Show All Answers" to view the answers for a quiz.
-

Creating Your Own Quiz Set

1. Start a New Quiz

- Click "Create" to begin.
- Fill in the required details: title, description (optional), and cover image (optional).
- Decide whether the quiz will be private or public.

2. Select a Creation Method

- For beginners, **Manual Creation** is recommended. You can also import from Quizlet or upload a CSV file if preferred.
-

Adding Questions to Your Quiz Set

1. Add Questions

- Click "Add Question."
- Choose between **Multiple Choice** or **Text-Based** questions.

2. Enter Options and Answers

- For multiple choice, enter the options and select the correct answer.
- You can randomize the order of questions if needed.

3. Save Your Quiz

- Once you've added all questions, click "Save."
-

Assigning and Hosting Games

1. Assigning Homework

- Click "Assign" to set the quiz as homework.
- Choose the game mode, set a due date, and define the goal (e.g., minimum number of correct answers).
- Share the unique URL or QR code with your students.

2. Hosting a Game

- Click "Host" to start a live session.
 - Choose a game mode and set a time limit.
 - Share the game code with students for them to join.
-

How Students Play a Game on Blooket

1. Join the Game

- Students visit play.blooket.com and enter the game ID or use the link provided.

2. Choose a Nickname

- Students pick a nickname and start answering questions.

3. Enjoy the Game

- Students can also participate in mini-games for extra fun.
-

Why Blooket is Changing the Game

Blooket isn't just another tool; it's a whole new way to engage students. In today's world, phones are a regular part of kids' lives, and Blooket leverages this by making learning interactive and fun.

Teachers no longer need to rely on traditional worksheets. With Blooket, learning becomes an exciting and dynamic experience.

Conclusion

Blooket is easy to use, fun for students, and incredibly effective in promoting active learning. Whether you want to assign homework or host live quizzes, Blooket makes the process enjoyable.

My rating: 7/10 – It's cool, simple, and works great!
